

# WORM JUICE

A CONCENTRATED MIXTURE  
OF ORGANIC WORM JUICE

- ✓ Provides millions of beneficial bacteria
- ✓ Enhances the plants natural defence system
- ✓ Improves soil water retention & uptake of nutrients
- ✓ Stimulates root growth & soil health

Kemgro™ Worm Juice is high in good bacteria count that will activate microbial activity, whilst the plant will have immediate access to a broad range of major minor and trace elements. Worm Juice is a by-product from nature's most marvellous creatures on earth. Worms have done all the hard work for you, providing your plants with millions of beneficial bacteria, vitamins, mineral, macro & micronutrients for overall plant health & strong roots, the natural way, with the power of worms. Use nature to grow crops the way it was intended with "**worms**". Worm Juice can be applied as a soil conditioner, through a fertigation system or as a foliar spray. Triple filtered to 100 microns for easy application.

## NATURE'S KEY TO HEALTHY CROPS & PLANTS

TYPICAL ANALYSIS	AMOUNT	UNITS
PH	7.0	units
Specific gravity	1.02	
Filtered	100	microns

AVAILABLE IN

1000  
LITRES

**DIRECTIONS FOR USE** Shake well or agitate before use. Always use diluted and do not exceed recommended rate per hectare. Lesser amounts applied more frequently will give best results.

CROP	RATE/HA	APPLICATION RATES AND TIMING
Broadacre	5-20 litres	Apply at first node, flag leaf and after stress conditions.
Tree crops	10-40 litres	Three split applications during the growing season.
Vegetables	10-40 litres	Three split applications 2 weeks after transplanting.
Pasture & grasses	10-20 litres	Two split applications during the growing season.
Seed dressing	5 litres per ton	
Home garden	75-100ml per litre	Three split applications every 5-6 weeks.
