

# KEMIGRO®

# HUMIC 26%

## SUPER CONCENTRATED LIQUID

- ✓ Powerful way to restore soil carbon
- ✓ Increases water holding capacity & efficiency
- ✓ Buffer against sodium & salts in irrigation water
- ✓ Excellent brix builder
- ✓ Australian Manufacturer

Kemgro® Humic 26% is concentrated liquid humate derived from Potassium Fulvate (humic and fulvic acid). Humates will help increase carbon in the soil and act as a buffer against sodium and salt in irrigation water. Sandy soils will also benefit by reduced nutrient and moisture loss. This product can be applied as an excellent soil conditioner, through a fertigation system or as a foliar spray. Filtered to 100 microns for easy application.

**DIRECTIONS FOR USE** Shake well or agitate before use. Always use diluted and do not exceed recommended rate per hectare.

### POWERFUL WAY TO RESTORE SOIL CARBON

TYPICAL ANALYSIS	AMOUNT	UNITS
PH	10.5-11	units
Specific gravity	1.10	
Filtered	100	microns
Humate/Fulvate	26	%w/v
Potassium (K)	5	%w/v

### AVAILABLE IN

CROP	RATE/HA	APPLICATION RATES AND TIMING
Vines	3-5 litres	Apply every 2-4 weeks or as required.
Citrus	3-5 litres	Apply every 2-4 weeks or as required.
Stone & Pome Fruit	3-5 litres	Apply every 2-4 weeks or as required.
Vegetables	3-5 litres	Apply every 2-4 weeks or as required.
Olives	3-5 litres	Apply every 2-4 weeks or as required.
Avocados	3-5 litres	Apply every 2-4 weeks or as required.
Tree Nuts	3-5 litres	Apply every 2-4 weeks or as required.
Berries	3-5 litres	Apply every 2-4 weeks or as required.
Cereals and broadacre	1-2 litres	Apply as required.
Golf courses and ovals	5 litres	Apply every 2-4 weeks or as required.
Seed dressing	1-2 litres per ton	
Fertigation	10-20 litres	Apply every 2-4 weeks or as required.
Home garden	40ml per 10 litres	Apply as required.
Hydroponics	2mls per litre	Apply early in growing period.
